Call for EXHIBITORS

The Organizing Committee for the 4th ICST International Conference on Personal Satellite Services (PSATS 2012) would like to invite you to participate as a sponsor and/or exhibitor at the upcoming Conference to be held in Norcroft Centre, University of Bradford on the 22-23 March 2012.

Revolutionary technological advances in satellite communications have made possible the next generation of satellite personal added value services by reducing the overall cost as well as addressing many technological challenges such as achieving mobility, having miniaturized antennas and terminal sizes, and providing high data rate links. With the unique broadcast nature and ubiquitous coverage of satellite networks, the synergy between satellite and terrestrial networks provides immense opportunities for disseminating wideband multimedia services to a wide range of audiences over large numbers of geographically dispersed people

The conference will explore such techniques, and aims to serve as a premier international forum for discussions, bringing together academic and industrial researchers, practitioners, and students interested in future techniques relating to the satellite communications, networking, technology, systems and applications.

As an exhibitor, advertiser, or contributor, you will find this Conference gives your company the unique opportunity of placing your business in front of this global SATCOM-terrestrial professional community.

PSATS 2012 at the University of Bradford, in Norcroft center, offers a rare opportunity to meet and network with a high quality audience in the professional atmosphere of a focused international technical Conference. The breadth and depth of research topics combined with the quality of invited and contributed technical presentations makes this Conference a 'must attend' Event for your company.

About the Facilities and Display Information
